

**HYDROHYTOS**<sup>®</sup>  
Excellence in quality products

"Smart Power for Smarter Systems."

**Hydraulic Power Unit**

## Specification

- ◆ Output: Up to 200 kW
- ◆ Oil Tank Capacity: Up to 10,000 liters
- ◆ Operating Pressure: Maximum 500 bar
- ◆ Pump Flow Rate: Up to 350 LPM
- ◆ Control Options: Manual, PLC - Based, and Custom Electronic Feedback Systems

## Key Features

- ◆ Built With Premium Hydraulic Components For Superior Reliability.
- ◆ Leak - Proof Design Ensures Clean and Efficient Operation.
- ◆ Low Noise Performance For a Quieter Working Environment.
- ◆ Energy - Efficient System Reduces Power Consumption.
- ◆ Fully Customizable Design To Suit Specific Applications.
- ◆ Simplified Circuit Assembly For Ease Of Installation.
- ◆ Contamination - Resistant Construction For Long-term Durability.
- ◆ Long Service Life With Easily Available Components.
- ◆ Consistent, Trouble-free Performance With Minimal Maintenance.
